ES

Fundada en 1969, Corven es la mayor compañía independiente del continente americano dedicada a la fabricación de amortiguadores para sistemas de suspensión de todo tipo de vehículos automotores.

En la actualidad, Corven ha diversificado su cartera de productos ofreciendo una gama muy completa de autopartes que hacen a los sistemas de freno, embrague, transmisión, suspensión y dirección las cuales se suman a las tradicionales líneas que dieron origen a nuestra compañía.

Nuestro producto está concebido para superar el rendimiento brindado por el equipamiento original, destacándose por su diseño que logra una excelente respuesta en seguridad, confort y durabilidad.

US

Founded in 1969, Corven is the largest stand-alone company in the Americas dedicated to manufacturing shock absorbers for suspension systems in all types of motor vehicles.

At present, Corven has diversified its product porftolio by offering a complete range of motor parts for braking, clutch, transmission, suspension and steering systems which add to the traditional lines that helped build up our Company.

Our product is conceived to surpass the original equipment performance, featured by means of a design that achieves an excellent response in safety, comfort and durability.

PR

Fundada em 1969 a Corven é a maior companhia independente do continente americano dedicada á fabricação de amortecedores para sistema de suspenção de todo tipo de veículo Automotor.

Atualmente, a Corven possui uma carteira diversificada de produtos e oferece uma gama muito completa de autopeças para sistemas de freio, embreagem, transmissão, suspensão e direção, além das linhas tradicionais que deram origem à nossa empresa.

Nosso produto é projetado para superar o rendimento oferecido pelo equipamento original, destacandose por seu desenvolvimento e excelente resposta em segurança, durabilidade e conforto.

CORVEN® Autopartes

Instrucciones de montaje
Assembly instructions
Instruções de montagem

1

- **Libere el caliper de freno (evite dejarlo suspendido por el flexible) retornando los pistones, abrir el purgador para expulsar el exceso de líquido concentrado en el mismo para no comprometer el funcionamiento del modulador hidráulico del ABS o del cilindro maestro. Remueva el disco de freno viejo.**

- *Release the brake caliper (avoid leaving it hanging from its flexible tube forcing the pistons back. Open the bleeder to expel the excess fluid so that the ABS hydraulic modulator or master cylinder functioning is not impaired. Remove the old brake disc.*

- Remova o caliper de freio (evite deixá-lo suspenso pelo flexível) retornando os pistões, abrir o sangrador para expulsar o excesso de líquido concentrado no caliper para não comprometer o funcionamento do modulador hidráulico do ABS ou do cilindro mestre. Remover o disco de freio velho.

2

- **Se recomienda lijar y limpiar la superficie de la maza de rueda donde será montado el disco de freno. Haga una inspección de la superficie de la maza de rueda para verificar alguna deformación de la misma utilizando un reloj comparador. Oscilación máxima permitida 0,05 mm. Los discos y campanas de freno Corven Plus son de aplicación directa, gracias a su tecnología dry-oil, ahorrando el tiempo de limpieza. Los Discos y Campanas de freno Corven Hi-Tech también son de aplicación directa y libres de aceite, gracias a su acabado de terminación anticorrosiva.**

- *You should smooth out and clean the wheel hub surface where the brake disc will be assembled. Check the wheel hub surface for any deformity using a dial gauge. The maximum oscillation allowed is (0.002 in) 0.05 mm. Corven's Plus brake discs and drums can be directly installed thanks to their dry-oil technology that saves cleaning time. Corven Hi Tech brake discs and drums are oil-free and can be directly installed thanks to its anti-corrosive topcoat.*

- É recomendado lixar e limpar a superfície do cubo de roda onde será montado o disco de freio. Faça uma inspeção na superfície do cubo de roda para verificar qualquer deformação utilizando um relógio comparador. Oscilação máxima permitida: 0,05 mm. Os discos e tambores de freio Corven Plus são de aplicação direta, graças a sua tecnologia dry-oil, e isso poupa o tempo de limpeza. Os discos e tambores de freio Corven Hi-Tech tambem são de aplicação direta e livre de óleo, graças au seu acabamento anti-corrosivo.

3

- ***Montar el disco nuevo fijándolo con los tornillos o tuercas de rueda, Utilice el reloj comparador a 10 mm.del diámetro externo de la pista de frenado del disco para observar la oscilación en el montaje del conjunto. Oscilación máxima permitida 0,10mm.***

- *Assemble the new disc and fasten it with the wheel screws and nuts. Place the dial gauge 0.39 in (10 mm) from the outer brake disc track diameter to check the assembly oscillation. The maximum oscillation allowed is 0.004 in (0.10 mm).*

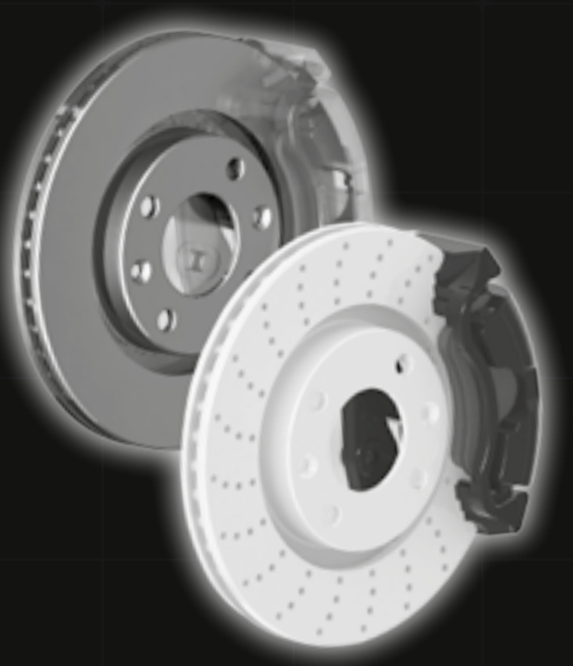
- Montar o disco novo fixando com os parafusos ou porcas de roda. Utilize o relógio comparador a 10 mm do diâmetro superior da pista de frenagem do disco para observar a oscilação na montagem do conjunto. Oscilação máxima permitida: 0,10mm.

4

- **No se recomienda realizar el ajuste final de los tornillos o tuercas de rueda con herramientas neumáticas, utilice un torquímetro aplicando una fuerza entre 8 a 10 kg. para autos y 10 a 13 kg para camionetas o utilitarios.**

- *You should not make the final screw and nut adjustment using air tools. Use a torque meter at 17.6 to 22 lbs (8 to 10 kg) for automobiles and 22 lbs to 28.6 lbs (10 to 13 kg) for pick ups or SUVs.*

- Não é recomendado apertar os parafusos ou porcas de roda com ferramenta pneumática. Utilize um torquímetro aplicando uma força de 8 a 10 kg para automóveis e de 10 a 13 kg para camionetes ou utilitários.



5

- **Luego de armar el sistema de frenos y antes de mover el vehículo, accione varias veces el pedal de frenos para asentar las pastillas sobre las pistas de frenado del disco.**

- *Once you have assembled the brake system and before you drive the car, press the brake pedal several times to seat the pads on the disc braking tracks.*

- Após montar o sistema de freios e antes de movimentar o veículo, acionar algumas vezes o pedal de freios para assentar as pastilhas sobre as pistas de frenagem do disco.
